Fundraising Goal:

Livelihood Grants

The Livelihood Grants programme helps those who have lost breadwinners in the family due to HIV. The programme provides both monetary and advisory support to help these people build and sustain a livelihood, have two square meals and live a life of dignity.

These grants, in conjunction with training from our volunteers, enable families to set up small but sustainable businesses. A grant of about £50 secures livelihood for life for a local family. Beneficiaries are generally widows who have to support 4 or 5 children.

The FutureSense Foundation works towards development of local communities. We believe in the powerful combination of community based programmes and business support projects, all with volunteers present on the ground to guide and monitor donations. This enables us to act quickly, with the support and help of local people, on grassroots projects that make a huge difference to people's lives.
